## TECHNICAL DATA SHEET

**PRODUCT:** White Fused Alumina

### DESCRIPTION:

White Fused Alumina was made from the high quality alumina by melting above 2000 in the electric arc furnace and cooling. It is white with the main crystal phase alpha-Al<sub>2</sub>O<sub>3</sub>.The white alumina produced in titling electric arc furnace has the advantage of high bulk density and low porosity and the volume stability and thermal shock resistance can be improved.
